AC+ Chair

"Patient flow is optimised as they're going from being laid flat to sitting up and getting ready to leave the clinic in one chair, reducing recovery time. The handset is simple to use and patients love the 'relax position"

Key Features

AC+ has the same features and adaptability as the Modena chair (see page 150), but has been produced with a lower backrest, this enables this chair to be available for a wider range of applications while incorporating all the existing advantages of the Modena chair.

- Antimicrobial vinyl to aid infection control

- Electric motor adjustment of the backrest, seat tilt and leg section as well as height

- Emergency foot switch for Trendelenburg position, ensuring staff keep their hands free

- The height-adjustable armrests allow side access for patients and can be set at the optimal height for entering or exiting the chair

- 125mm castors for comfortable transporting, central braking system

- MAX 34.6 stone/220kg
