

# Albany Reclining Chair

“Our ward cares for patients suffering from Parkinson’s but also dementia who can become a bit restless whilst in their beds. Prior to this chair’s arrival we used other recliners which weren’t very practical or comfortable and more importantly didn’t provide the necessary support to patients whose conditions mean they can become quite jerky.”

CA1986

CA1985

The Albany chair is designed for staff adjustment only

## Key Features

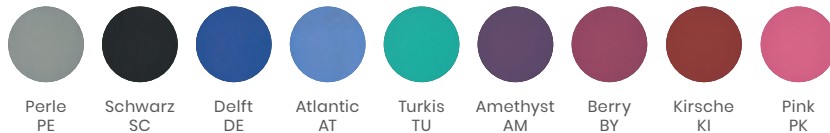

The Albany is designed for a wide spectrum of users including the elderly or those with life-limiting conditions, ataxic movements, and aching joints, where any movement is painful. Albany is designed for staff adjustment only.

Viscoform pressure care seat cushion as standard to support patients seated for long periods, Albany can be used as part of a 24-hour postural management program to reduce pressure problems.

- Easy to clean antimicrobial vinyl to aid infection control
- Supplied on heavy-duty lockable castors
- Independent backrest recline with seat adjustments for angle and depth
- Sliding footplate to support patients feet during transport
- The recline and seat tilt functions are operated by controls on the push bar at the back of the chair
-  25 stone/160kg

## Colour Options

Colour option is for the outside edge of chair. Seat and back cushions in Dark Grey as standard. Our nine most popular colours are below, however these chairs are also available in the full Valencia range shown on page 206.

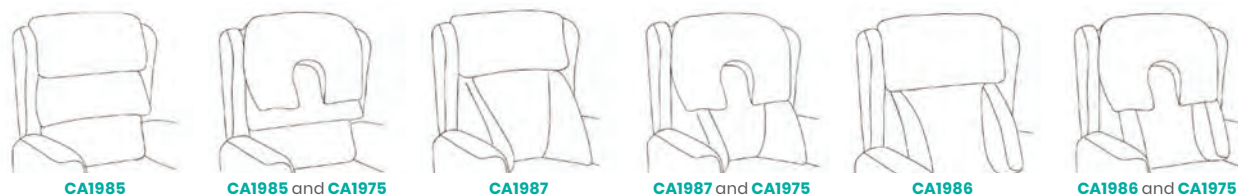

## Pressure Care Colours

Designed to provide welcome relief when sitting for extended periods. Visit our website for more details.

There are multiple options for backrests and headrest cushions that provide ergonomic support for the patient, ensuring the chair can be adapted over time for changing conditions or new users.
