

Arvada[®] 2

The most comfortable and supportive patient chair you'll ever sit in.

A patient chair is shown in a hospital room. The chair is white with a blue cushion. Above the chair is a control panel with several buttons and a monitor displaying vital signs. The room has wood-paneled walls and a white ceiling.

What if there was a patient chair that **supported everybody correctly, no matter their shape or size?**

What if there was a patient chair that **was adjustable to suit every user quickly and easily?**

What if there was a patient chair that **stood the test of time, even in a hospital?**

What if there was a patient chair that **made everyone feel comfortable?**

What if there was a patient chair that **you'd want to get out of bed for?**

Frame for Life® 25-Year Warranty

Backed by our **Frame for Life® 25-year warranty**, Arvada® 2's durable metal frame is re-writing the meaning of value.

Easily removable and replaceable arm pads, seat cushions and back rest **provide lower whole life costing.**

The whole chair has been **thoughtfully constructed** to withstand the rigours of a healthcare environment.

With its **antimicrobial powder-coated finish**, infection prevention & control is easy.

Our signature double-lined stitching and **antimicrobial vinyl help guard against the hidden worry of infections**, keeping environments safe and clean.

**Our purpose is to listen,
understand, and collaborate
with care teams to transform
healthcare environments.**

Improving outcomes for patients and making a lasting difference to their families is at the core of what we do.

Over the last 40 years, we've worked in partnership with the NHS and private hospitals to help support their staff and make sure patients and their families are comfortable and cared for during their time in hospital.

You can count on us to make your life easier, so you can keep things running smoothly...

...because people matter most.
