

curaCARE® CA4862

curaCARE Easy Clean Overbed Table

Compact

Every design brief has a purpose for us, when we started the process our goal was to create the best value Compact Over Bed Table. The range is an essential part of patient care, and so our driver was to create a robust and durable product that was designed especially for demanding healthcare environments. The design ensured a product that is 'one wipe' clean' to aid infection control, the 75mm castors allow the table to be easily moved. The table is height-adjustable which allows the patient to choose the height to suit their needs.
