

curaTASK® CA4183

Clinicart Trolley

Stainless steel, reversible-shelf

Our reversible shelf trolley has upturned edges on one side and a flat surface if reversed. The shelves are completely removable for ease of cleaning and can be steam cleaned or autoclaved. This dressing trolley is constructed with a seamlessly welded frame for durability and supplied on 95mm castors (two braked), fully assembled. The sleek design of the steel trolley helps promote good hygiene while offering an attractive finish.
