

Colorado Wide Arm Chair

“The wide arm makes a huge difference for our patients who require a cannula”

View a video of the Colorado Recliner in action

Key Features

Colorado features classic ergonomics that we know work well for comfort, we have also incorporated a curved back support and wider arms, making this recliner perfect for patients who require a cannula. The Colorado patient chair is available in both manual and electric versions.

- Ideal for oncology, dialysis, haematology, infusion, recovery areas
- Available with either a manual or electric recline mechanism
- Two motor operation enables part or full recline as required
- Tilt-in-space mechanism
- The electric model has the ability to recline but also to rise up to assist patients with entering and exiting the chair
- The ergonomically designed backrest offers patients optimal support and comfort when seated for longer periods
- Easy to clean antimicrobial vinyl to aid infection control
-  25 stone/160kg

Colour Options

Our nine most popular colours are below, however these chairs are also available in the full Valencia range shown on page 206.
