

Maintenance Contracts

Choose your 1, 2 or 3 year plan for total peace of mind.

Why choose a maintenance contract?

Our service maintenance contracts are a cost-effective way to reduce downtime and enhance the lifetime of your product. They provide a basic Planned Preventative Maintenance strategy, essential for identifying any potential problems whilst helping to keep staff and patients safe when using the furniture.

What is included?

During your service visit, our dedicated technician will undertake preventative planned maintenance by completing a full product health check. Followed up by a detailed report of your furniture operation and overall condition.

Which level is right for my furniture?

We have a service maintenance contract that's perfect for you, depending on your furniture. Select from our 2 levels to see which is best for you. Generally, manually operated furniture is included in Level 1, and for electrically operate furniture, select Level 2. For full details, get in touch with the team.

Level 1

All manual chairs, recliners, plinth couches and blood sampling chairs

- One annual service visit in accordance with our standard maintenance procedure.
- Each contract taken out is fully inclusive of all travel fees – we pride ourselves on no hidden costs.
- 25% off replacement parts not covered under warranty.

Level 2

All electric recliners, plinth couches, treatment chairs and blood sampling chairs

- One annual service visit in accordance with our standard maintenance procedure.
- Each contract taken out is fully inclusive of all travel fees – we pride ourselves on no hidden costs.
- 25% off replacement parts not covered under warranty.
