

# Mild Steel Infusion Stand

A mild steel drip stand which is high-quality and competitively priced.

## Key Features

Our infusion stands provide great stability for patients who are receiving intravenous fluids. The upper poles and hooks are constructed from 304 grade stainless steel and are height-adjustable. Available in a two and four hook version.

- Weighted base
- Five star base with antistatic, non-marking castors, 2 braked
- Delivered fully assembled

## Safety Standards

Meets Appendix A of BS3619:1976 Mobile Infusion Stands. (Stability requirements).

## Coloured Base Options

For infusion stands with coloured base (extra cost), add the colour suffix to the end of the code, e.g. CA3410AT.
