- Quality castors, 2 braked

## Ordering Information

Code	Description
CA4104	Mobile Workstation

**“I purchased some of the mobile workstations and they are the answer to all the nurses’ frustration of trying to find a surface to write notes and for resting clinical trays that house items for cannulation and treatment fluid bags, etc. The adjustable height is ergonomic which encourages good posture. They are now an essential day to day item for staff and we wouldn’t be without them. Highly recommended.”**
