Key Features

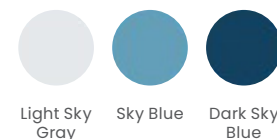

It is an innovative solution developed in response to the latest trends in outpatient surgery. You can prepare patients for surgery and take them to the OP room in the same chair, surgeons and staff can safely transfer patients on and off the operating table. The soft mattress and safety rails provide optimal patient comfort and safety for recovery.

- The surface is smooth and without seams. It is upholstered in a thin and extra-strong PU coating. It is resistant to blood, urine, oil, fat, and disinfectants. The base cover is UV-resistant, scratch resistant, and prevents dirt build-up
- Easy to use handset for simple height adjustment, allowing clinicians to work at the preferred height, reducing potential back care issues
- Easy to push and manoeuvre due to two additional fifth wheels, moving along corridors and turning on the spot will no longer be a problem, the large castors feature a central locking system
- The most comfortable position for resting is Zero Gravity, fast access is easy by pressing the “cloud” button on a hand set
- Large push handles allow for efficient transport
- The chair corners include a bumper to protect the chair and its surroundings from damage
- Integrated armrests on safety rails support your patient’s arm during preparation for surgery
- Using a handset, you can lower the chair to 58cm to enable easy access for patients with mobility issues
-  39 stone/250kg
