

curaFORM® OWB11

Opti-Lite Side Chair

Opti-lite has fluid curves and soft edges making for a relaxed contemporary seating range that is ideal for waiting, relaxing or meeting environments. Opti-lite has been designed and manufactured to allow you to individually specify materials to create a different aesthetic using one design. The solid beech turned legs continue the fluid design, providing a strong durable frame for the hardest of contract environments. With a wide range of colour options available this range can be built to suit any area's needs.
