

Modena AC Surgery Chair

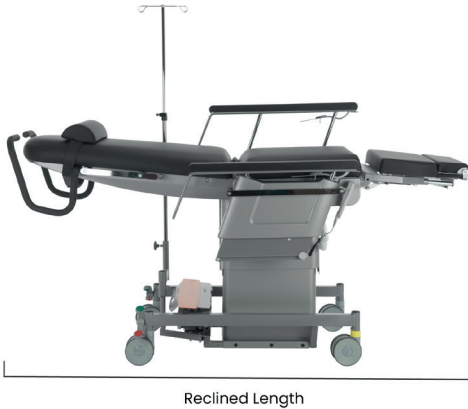

Ideal for minor procedures, preparation and transport

The Modena AC chair has been introduced to meet the demand for a mobile treatment chair which can be used where traditionally a trolley would be required.

Its compact design saves vitally needed space in a busy hospital environment. It is ideal for minor day procedures, preparation for and transport to and from surgery, and for recovery after anesthesia.

Features include:

- Electrically adjustable in height, backrest, leg rest and trendelenburg.
- Battery system to allow for use away from mains power
- Easy to operate drop down armrests act as cot sides when the patient is lying down
