

Stainless Steel Infusion Stand

Compatible with any clinical environment or operating theatre, our premium quality stainless steel infusion stands are constructed from 304 grade stainless steel.

Key Features

A weighted base as standard for optimum stability when heavier items such as infusions pumps are used in conjunction. Supplied with 2 of 4 hooks, and highly mobile with quality castors.

- Five star base with antistatic, non-marking castors
- Height-adjustable
- Delivered fully assembled

Safety Standards

Meets Appendix A of BS3619:1976 Mobile Infusion Stands. (Stability requirements).
