

eMotio Treatment and Examination Chair

Following the largest study ever conducted in relation to medical furniture involving over 200 medical professionals from 6 different countries, Ocura is proud to present eMotio.

Key Features

Designed to deliver efficiency to the clinician, this chair allows the doctor to focus on diagnosis while providing the patient exceptional ergonomics. Low-entry heights and user weight of up to 205kg means equality for all chairs users. Cleverly designed arms that convert to leg rests through one simple function ensure focused time on patient/doctor consultation.

- Four electric motors to ensure easy and safe positioning of patient
- The electric height-adjustment allows the couch to be positioned easily allowing for a low entry height for the patient and a comfortable position for the clinician to work at
- Adjustable neckrest
- Electrical gynae tilt providing pelvic height of up to 1050mm
- Electrically deployed castors for moving the chair when unoccupied
- Can be reclined to Trendelenburg in the event of an emergency
- Favourite positions accessed through one touch memory settings
-  32.3 stone/205kg
