

## ARVADA - High Back Patient Chair

Focusing on a family of chairs, the Arvada is designed with an emphasis on premium support for the patient followed by comfort. The robust strong metal frame will withstand many years of maintenance-free use, while the removable seat cushion and clean lines are the perfect solution for supporting infection control. The Arvada is available in a range of options including a model with height-adjustable armrests, ideal for wheelchair users and patients who require easy side access. Both armrests are easily adjustable to be positioned at varying heights, allowing the patient to configure the chair to their optimum comfort. High and low-back options also available, including height-adjustable and bariatric models.
