

MULTI-STORE DOUBLE-WIDTH PROCEDURE TROLLEY - Standard and Low Height

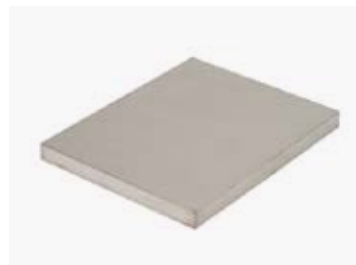

Our multi-Store double-width trolley is ideal for maximum storage and transportation of equipment and consumables, this option offers twice the capacity as our standard versions. Supplied with labels and holders as a visible solution to department storage. The frame is welded together for premium quality with metal runners to ensure durability and longevity. With two push handles available on the standard height model and enclosed sides with a removable plastic top, this trolley can be cleaned with ease. Low and deep trays are an option along with dividers and a range of accessories to customise the trolley to the user's needs.
